

Guaranteed nutrient delivery.™

FAST FACTS

I need Re:Fuel if...

I eat cooked or processed foods.

I have low energy levels.

I do not eat 5 servings of fruits and vegetables per day.

I drink carbonated beverages, alcohol, tea or coffee.

I have difficulty losing weight.

I feel stressed.

RE: FUEL

THE ULTIMATE SIX-IN-ONE SUPPLEMENT FOR SUPERIOR DAILY NUTRITION AND OPTIMAL HEALTH, ENERGY & VITALITY

WELLNESS LIFESTYLE
Dietary Supplement

RE:FUEL

Vollara's Re:Fuel is the world's finest 100% natural, full spectrum nutritional system for superior daily nutrition, optimal health, energy and vitality. Re:Fuel is SIX natural products combined into ONE amazing system for maximum health benefit, convenience and cost effectiveness.

- 1) Vitamins (Re:Gain):** Complete, whole food multi-vitamins replenish essential nutrients for a healthy body.
- 2) Minerals (Re:Claim):** Patented chelated minerals with maximum absorption to promote energy, stamina and a healthier you.
- 3) Digestive Enzymes (Re:Absorb):** Vital enzymes necessary for proper digestion and nutrient utilization of the foods you eat.
- 4) Antioxidants (Re:Inforce):** Potent antioxidants for complete protection against the damaging effects of free radicals.
- 5) Flora (Re:Balance):** Billions of stabilized flora to help suppress harmful bacteria and promote optimal health.
- 6) Fat-Digesting Enzymes (Re:Lease):** Specific nutrients for metabolizing fat and supporting healthy blood sugar levels.

CAeDS® GUARANTEES DELIVERY

CAeDS® is Vollara's proprietary and highly sophisticated nutrient delivery system that ensures the rich nutrients in Vollara products are absorbed and delivered to the cells of the body. The powerful combination of Vollara's premium quality ingredients, advanced formulations, and a cellular nutrient delivery system makes it virtually impossible for any other nutritional product to match the effectiveness of our products. Simply put, CAeDS® guarantees maximum effectiveness!

ABOUT VOLLARA:

Vollara is a company you can count on, based on a solid foundation and a rich history. Backed by a legacy of over 80 years of success, with a dedication to creating endless opportunities for people and innovating healthy living solutions. Our core values embrace stewardship of our people, healthy lives, and our planet. We are 100% committed to creating a future of abundance for all we touch—responsibly, intelligently and with a deep sense of obligation toward generations who will follow us.

RE:FUEL

THE ULTIMATE SIX-IN-ONE SUPPLEMENT FOR SUPERIOR DAILY NUTRITION AND OPTIMAL HEALTH, ENERGY & VITALITY

WHAT MAKES RE:FUEL SUPERIOR?

Vollara's Re:Fuel is much more than just your typical multi vitamin and mineral product. Re:Fuel is the only complete, nutritional supplement system that addresses all your core daily nutritional supplementation needs - and is combined with the most powerful nutritional delivery system on the planet, CAeDS®.

- Vitamins, minerals, antioxidants, enzymes, and flora meet your body's daily core nutritional needs in one convenient and cost effective product.
- Provides 100% natural whole food vitamins – the most complete and effective form of vitamins available.
- Uses only patented amino acid chelated minerals - proven to be the safest, and most absorbable minerals available.
- Provides multiple sources of the most powerful super antioxidants for maximum free radical protection.

- Offers the full spectrum of digestive enzymes from plant sources for optimal benefit throughout the digestive tract.
- Contains a broad array of stabilized friendly flora for maximum support of the immune and gastro-intestinal systems of the body.
- Added lipase and patented chelated chromium provide extra support for metabolizing fat and maintaining healthy blood sugar levels within normal range.
- Includes a custom formulated Chelate Activated Enzyme Delivery System (CAeDS®) ensuring the nutrients in this product are delivered to the cells of the body for guaranteed maximum effectiveness.
- Complete, balanced formulation; all natural; highest quality ingredients; and completely vegetarian.
- Contains no artificial colors, flavors, sweeteners, or chemical preservatives, additives or fillers.

BENEFITS:

Vollara's Re:Fuel is a 100% natural, doctor-formulated, whole food nutritional system created to address your body's daily nutritional supplement needs.

- Provides all the essential vitamins and nutrients necessary for the creation of energy and overall health.
- Provides essential minerals needed by the body to promote stronger bones, healthy hair, skin and nails, and help maintain firm muscle tone.
- Provides potent antioxidants to help protect you from free radical damage.
- Provides vital enzymes to support proper digestion and to receive maximum nutrition and energy from your food.
- Provides beneficial intestinal bacteria to strengthen your body's immune system and support your overall health.
- Supports the body's ability to make lean muscle and burn fat while exercising.
- Patented chromium source is proven to support healthy insulin function, within normal range, support healthy blood sugar levels, and reduce food cravings.

RE:FUEL

THE ULTIMATE SIX-IN-ONE SUPPLEMENT FOR SUPERIOR DAILY NUTRITION AND OPTIMAL HEALTH, ENERGY & VITALITY

RE:FUEL TECHNICAL INFORMATION

There are five fundamental nutritional needs that must be met on a daily basis – vitamins, minerals, antioxidants, enzymes and flora. Environmental toxins, pollution, stress and poor diets place a significant burden on the body and have created greater nutritional needs than ever before. In addition, depleted soils and cooked and processed foods have made it difficult, if not impossible, to meet these daily nutritional needs from foods alone. As a result, nutritional supplementation in all five of these core areas is recommended for optimal health.

VITAMINS:

The best source of vitamins is from whole food sources. Whole food sources of vitamins not only provide the essential vitamins, but also supply all the natural cofactors and synergistic phytonutrients required for optimal health in the balance nature intended. Vitamins, minerals and phytonutrients work synergistically with each other and must be provided in the correct balance to achieve health. Too much of one nutrient can cause an imbalance and potentially do more harm than good. In other words, more is not always better and the body needs the right amount of a nutrient rather than more of it. A true nutrient must contain the vitamins along with its natural synergists (naturally associated factors) as found in unrefined food. Re:Fuel is superior to other supplements because it provides a full complement of rich whole food vitamin sources in the proper amounts for complete nutrition.

MINERALS

The form of mineral used in a product is critical because it determines the extent to which the body can use the supplemental mineral. Many forms of minerals on the market are poorly absorbed, and consequently are largely excreted from the body as waste. Simply put, minerals only benefit the body to the extent they can be absorbed and utilized. Re:Fuel contains a balanced blend of all the essential minerals needed by the body in the most absorbable form, as amino acid chelated minerals. They are assimilated by the body as

amino acids rather than minerals, so they have the highest absorption rate possible. By increasing the absorption rate, the minerals in Re:Fuel are more readily available so the body will have the supply of minerals it needs for a healthy metabolism and a strong immune system.

ANTIOXIDANTS

Re:Fuel provides potent levels of cutting-edge antioxidants such as grape seed extract, pine bark extract, a patented organic olive extract, resveratrol from grape skin, quercetin, blueberry, cranberry and raspberry, along with selenium and natural sources of the antioxidant vitamins A, C and E. This combination of antioxidant sources provides the strongest and most complete balance of antioxidants to fight free radicals, and includes powerful, natural antioxidant compounds like bioflavonoids, polyphenols (including hydroxytyrosol and resveratrol), anthocyanadins, carotenoids, tocopherols, tocotrienols and more. Additionally, it contains an SOD Precursor System used exclusively by Vollara brand products. This system allows the body to create more of its own powerful antioxidant enzyme, Superoxide Dismutase.

ENZYMES

Re:Fuel contains the full spectrum of enzymes required by the body to assist in digestion and absorption. Raw food naturally contains the enzymes necessary to digest itself. However, enzymes are destroyed by the high temperatures required to cook food. Thus, most methods of cooking and processing leave food devoid of enzymes and place the full burden of digestion on the body. In essence, eating processed foods “robs” the body of the energy it needs for growth, maintenance and repair of its tissues and organ systems. Re:Fuel replenishes your body with these critical enzymes.

FLORA

Your body needs to have a sufficient amount of “friendly flora” or “good” bacteria to sustain good intestinal health. These bacteria are destroyed by such common factors as carbonated drinks, laxatives, birth control pills, coffee,

alcohol, aging, stress and antibiotics. Maintaining and promoting the growth of helpful bacteria, while destroying the harmful strains, is vital to health. If harmful bacteria grow in too great a proportion, serious consequences can arise. A number of diseases such as rheumatoid arthritis, colitis, diabetes, meningitis, thyroid disease and bowel cancer are thought to be related to significantly altered bowel flora. The level of health and well-being we enjoy is affected by how well we maintain a wholesome environment in which these microorganisms can live and flourish. The regular inclusion of supplemental flora contained in Re:Fuel supports the healthy growth of needed bacteria.

SUPPORT FOR FAT AND SUGAR METABOLISM

Recognizing the harmful effects of fats, many people have chosen to greatly reduce their fat intake. However, fat is a vital source of energy and is essential to the workings of all the body's systems. Nutritional research shows that the healthiest diets contain significant amounts of naturally-occurring fats, especially unsaturated fats. The key to the benefit of dietary fat is simply to make sure that fats are digested. To address this need, Re:Fuel has included a high level of the enzyme lipase to ensure that fat is digested. Lipase breaks fat into fatty acids that can be utilized for energy. Along with lipase, Re:Fuel includes extra chromium, a vital ingredient to support and work with the body's insulin. This is important because insulin helps to regulate blood sugar and control hunger; regulate energy, fat burning and muscle building; govern the utilization of cholesterol; and resist disease by stimulating the immune system. Vollara's Re:Fuel is your complete solution to conveniently and cost effectively meeting your body's core nutritional supplementation needs. Use this advanced system to help you achieve optimal health, energy and vitality.
